

# va-Q-tec

ALWAYS THE RIGHT TEMPERATURE

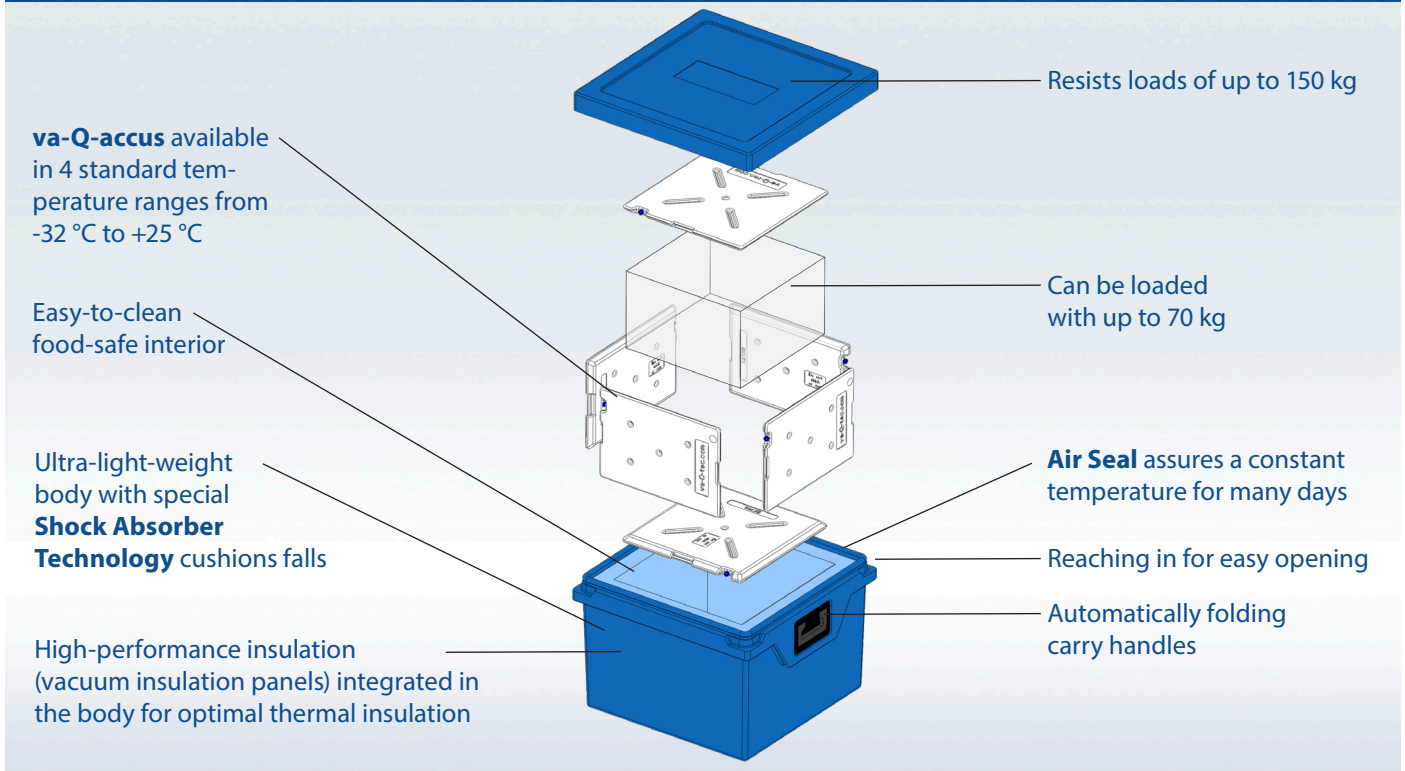

## va-Q-box®

The blue thermal Wonder.  
Ideal in the fields of gastronomy, catering  
and ice cream manufacturer...

**FOR HIGH PERFORMANCE  
COOLING / KEEPING WARM**

# va-Q-box<sup>®</sup> The blue thermal Wonder

**va-Q-box** achieves excellent insulation performance due to vacuum insulation technology which is also used in the **spaceflight**. Vacuum insulation panels are installed in all walls, in the lid and floor. This creates a large **"box-shaped thermos bottle"**. These panels offer ten times higher thermal insulation than traditional insulation materials of the same thickness. Thus **va-Q-box** ensures temperature maintenance for thermally sensitive transport goods worldwide up to six days – without external energy.

Box version:	va-Q-box M	va-Q-box L
Outer dimensions (mm):	525 x 375 x 410	525 x 525 x 410
Suitable for GN trays :	GN 1/3	GN 2/3
Dimensions (mm):	325 x 176 x 20 - 200	354 x 325 x 20 - 200
Inner dimensions (mm):	380 x 230 x 300	380 x 380 x 300
Empty weight without elements (kg):	5,6	7,6
Inner volume (liter):	27	43
Temperature stability (depending on the box configuration):	up to 4 days	up to 6 days

**va-Q-accu -32G**  
-35 °C to -25 °C

**va-Q-accu -21G**  
-25 °C to -15 °C

**va-Q-accu +05G**  
+2 °C to +8 °C

**va-Q-accu +22G**  
+15 °C to +25 °C

Other temperature ranges available on request.
